

PACS 35 INVITATIONAL TIEBREAKERS

The top 2 teams from each board will advance to the Semifinals based on total points earned. A forfeit win will be treated the same as an actual win that was earned on the pool table for this tournament. If 2 teams are tied in points and only one can advance, the team that won the head to head matchup will advance.

If 3 teams are tied in a board, the teams will be seeded as follows to determine which team(s) advance to the semifinals..

Scenario: Team A, B, and C are all 7-8. Team A went 7-3 in common matches. Team B and C went 4-6 in common matches. Team A would be highest seed. The next highest seed would be the winner of the head to head match between Team B and C.

Scenario: Team A and B each went 6-4. Team C went 3-7. The winner of the head to head match between Team A and Team B would be seeded 1. The loser of that match would be seeded 2. Team C would be seeded 3.

Scenario: Team A, B, and C all went 5-5 in common matches. In this case the teams will be seeded according to how they started the tournament (based on regular session performance).
